MEMORANDUM FOR: MR. BISSELL

SUBJECT : Use of Toxic Substances

The case of using toxic substances was discussed at great length with [REDACTED] and other Lockheed personnel. Upon my return, I also brought this to the attention of Operations and ECM personnel just in case they contemplate future use of such compounds. I believe they all understand the problem sufficiently now. [REDACTED] will continue to let [REDACTED] know of his findings on the questionable cases. I believe that this takes adequate care of the situation and that further notification is not necessary.
